## FOUNDER'S MESSAGE

World is a global village and every individual in the world should be accommodated for their treatment and better quality of life. We are very proud to say, India is accommodating approx. 2 Million patients who are coming for tertiary care every year because we are available with highly experienced doctors, cutting edge technology. Hospitals with world class infrastructure and comprehensive services, highly trained medical professionals. The beauty of Indian medical services is - "cost of treatment which is always very affordable without compromising the quality, so most of the patients of this global village can be accommodated in India.

Aarav Medicare believe - 'Every single Life is Precious'- so as a Medical value travel facilitator we are committed to make the medical travel easier for them. We do assist them with tentative Medical opinion with details, Visa invitation and on ground support upon their arrival including warm reception at airport, assistance for treatment at Hospital, Forex, Accommodation, local tour and follow up post departure. Aarav Medicare's core values are Patient Centricity, Ethical Practice, Integrity, Respect & Humanity and Confidentiality.

**SAURABH KISHORE**  
Founder Aarav Medicare

### **WHY TO CHOOSE INDIA AS BEST MEDICAL TOURISM DESTINATION**

*Being one of the fastest growing medical destinations around the world, India is predicted to drive higher with time. Everybody can get tertiary medical treatment in India which is either not available or people cannot afford it in their home country. Here are 7 major factors which make India an ideal medical tourism spot.*

- *Low Cost of Treatment when compared to the first world countries like the US and UK.*
- *Getting Visas for medical purpose is much easier than ever.*
- *Access to immediate service is what attracts the foreign medical tourists. Surgeries are done almost immediately.*
- *Even though India is a developing country, it provides world-class and standardized medical services and care with the help of the latest technology.*
- *Post retreatment recovery provided to the patients with therapies like Ayurveda, Naturopathy and Yoga.*
- *India provides an opportunity to the medical tourists to visit some of the most alluring and awe-inspiring places by taking them on a medical tourist trip.*
- *India has a strong base of qualified and skilled doctors. Another major factor that has made India succeed in inviting the medical tourists is the populace of good English speaking doctors, guides and medical staff which makes it easier for the foreign tourists to correlate well to Indian doctors.*
